## WOLFRACE FITMENT GUIDE

The most important, and useful, part of the Wolfrace website is our extremely popular Fitment Guide. All you need to know is the make and model of your vehicle along with the year of manufacture and the size of wheels required. The results will show which alloys will suit your vehicle along with the recommended tyre size. The filters at the top of the online guide give you the option to filter results by brand, colour, size, width and diameter.

To keep it simple, you can just enter a vehicle make and model along with your required wheel size to the Fitment Guide search facility on the home page of [www.wolfrace.com](http://www.wolfrace.com).

For example make=ford, model=transit, size=15", size can be found using the last 2 digits of your tyre size. For example if you have 195/65/15 the size is 15". You have added options such as filter wheels with a 5 year warranty, unique to Wolfrace Wheels, or use our winter tab for a full range of winter wheels. Use the trade tab, to enter the trade website to view all the above plus trade prices, offers and much more!

## FITMENT RESULTS

Once you have all the wheels displayed, click on the wheel image to view the wheel on a car, see more images and to see the weight of the wheel. Use the e-mail tab if the wheel you require is out of stock to get a delivery date. Use the "Find a dealer tab" to find your nearest Wolfrace Dealer!

## WELCOME TO WOLFRACE

The Wolfrace brand was created in 1971 with the launch of the Slot Mag alloy wheel. Always innovative, Wolfrace Wheels (UK) Limited was the first European company to launch a polished alloy wheel into the market place. Throughout 47 years of history Wolfrace has been synonymous with high quality, affordable, industry leading fashion conscious products, ranging from (in the early days) classic alloy wheels and vehicle racing seats, to the current range of stylish alloys and automotive accessories - not forgetting our Wolfrace Insurance products.

Always at the forefront of manufacturing and quality control standards, currently Wolfrace is the only UK based aftermarket alloy wheel brand able to offer a 5 year warranty on some of our standard finish alloy wheels.

Wolfrace are the UK distributors of Wolf Design and Ellis accessories.

### ROAD

We have a wide range of alloy wheels suitable for everyday road use from subtle o.e style to head turning black and polished designs.

### TRACK

Our Wolfrace TrackReady alloys are proven on the track in various race formula.

### LUXURY

Choose Wolf Design alloy wheels for your luxury vehicle. Perfect for Range Rover, BMW, Bentley and Audi amongst others.

## WHATS NEW IN 2018

New sizes, new designs and new colours! So much more in 2018 from the UK's most popular wheel brand.

With sizes from 14"-24" we have it covered. We also have niche fitments catered for with a 21" wheel for all popular SUVs through to a large range of 22" wheels for your pick-up with accompanying wide arches.

We have introduced new winter wheels to keep you on the road and a new range of 4x4 wheels to take you off it! Our updated fitment guide takes you through the endless fitment possibilities, showing off our ranges which offer excellent quality, fast delivery and up to 5 years' warranty when you register online. Wolfrace Wheels are proud to be the only UK wheel company to offer 5 year warranties on their wheels.

Our 2018 range has been specifically put together to cover today's motorists and enthusiasts with wheels to suit road, track and luxury vehicles and with our CNC machines, we can engineer all popular fitments in-house.

All our new designs are clearly marked throughout this brochure.

## BE PREPARED FOR WINTER

Be prepared for winter with the UK's largest range of winter wheels.

Made in a wide range of sizes available for most vehicles (including SUVs and vans) our range of winter alloys includes designs from the Wolfrace Eurosport, GB and TrackReady collections as well as wheels from the Explorer and Wolf Design ranges.

Our range includes selected wheels which are made to the exact manufacturer's specifications and many TUV approved GB winter wheels accept the original equipment centre cap. Run-flat compatible wheels (EH2+) are also now available.

The Wolfrace GB range is manufactured to exceed original equipment specifications. With this in mind, the GB range has a warranty on selected wheels of up to 5 years, exclusive to the GB collection. Silver painted wheels within the range are ideal for winter use with a durable paint surface to deal with all weather conditions. Our GB collection is supplied to Renault and several other leading car brands. Selected wheels take original equipment fittings and badges, and all wheels are TUV certified.

A new range of products, available for all popular pick up trucks and 4x4 vehicles. Arch kits are tailor made to your vehicle, quick and easy to fit and excellent quality. Various other products available, please see our Wolfrace Safari brochure online.

**New products arriving all the time, including arches, side/rear protectors and bonnet grilles for all popular pick-up truck models.**

## WOLFRACE RANGER

The Ford Ranger has earned its reputation as a go anywhere, do anything pick-up. Wolfrace have taken this great truck and pushed it to the next level by adding luxury and styling.

With the ability to carry up to 1,269 kg, tow up to 3,500 kg and wade through deep water, this is a vehicle you can depend on in the harshest environments, rely on the toughest jobs and trust to deliver an exceptional driving experience, every day. Not only will this truck perform, it will turn heads wherever you go.

### Van Rated logo

This logo highlights the wheel has a load index of 865kg plus suitable for high capacity van loads. Examples include VW T5/6, Vivaro, Traffic amongst many others. Many of our wheels are also load rated for light vans/commercials. Please call for exact specifications where required.

# WOLFRACE CUSTOM DRILLING – COMPLETE FITMENT COVERAGE

CUSTOM DRILLING

## CFC – COMPLETE FITMENT COVERAGE

Selected Wolfrace wheels are manufactured as blank PCD – this means they have not been drilled to suit a specific vehicle. Our drilling machines allow us to custom drill blank wheels to custom fitments, in most cases we can adjust PCD (stud pattern) offset and centre bore. This means that if your vehicle can accept the wheel size, we can offer a wheel to suit.

Wolfrace are the exclusive UK distributors of Ellis wheel accessories

## Wolfrace Approved Accessories

Wolfrace fitting kits - include only the best wheel accessories available in Europe. Our wheel nuts and bolts all have European TUV certification.

Black locking wheel nuts or bolts - available for most applications.

Security Accessory Upgrade - upgrade your wheel purchase, ask your dealer for our security upgrade including lock nuts and bolts.

Branded valve dust caps and chrome valves - the finishing touch!

The range of Wolfrace accessories has expanded to include various safety items as well as our standard alloy wheel accessories. Essential items such as our locking wheel nuts or bolts are a must-have for anyone purchasing Wolfrace wheels, they are the most cost effective and easy to use deterrent for any would-be alloy wheel thieves.

## WEAR WOLF CLOTHING

The new Wear Wolf clothing range is available to purchase by sending an email enquiry to [sales@wolfrace.co.uk](mailto:sales@wolfrace.co.uk)

Items in the new range include a Polo Shirt and Fleece - both with high quality logo embroidery.
