

LWBCC S-XXXL

Water Resistant Caravan Cover

Intention For Use

Thank you for purchasing this Water Resistant Caravan Cover from Leisurewize. This caravan cover is intended to be used to protect your caravan from dirt, grime, bird droppings etc. This heavy-duty, 4-ply non-woven polypropylene fabric cover withstands UV and resists water while remaining breathable, providing exceptional protection against the elements.

Before fitting your cover over your caravan, we highly recommend that you read through all the information in this document.

Product Elements

1. Caravan Cover
 2. Hitch Cover
 3. Storage bag
-

Important

- Release pressure on zips when opening and closing by holding both sides level and straight. This will stop material strain and damage to zip teeth.
 - Do not over-tighten. This will damage your cover.
 - Do not attempt to fit your cover in windy conditions.
 - Do not use your caravan's heating system or any other appliance with the cover fitted.
 - Do not tow your caravan with the cover fitted.
 - During long-term storage, regularly clean the vehicle's exterior to prevent mould growth.
-

Before Fitting Your Cover

- Ensure windows and rooflights are closed.
- Activate your caravan's handbrake and wind down the corner steadies.
- Remove or cover sharp and fragile objects on your caravan's exterior to prevent damaging them and the cover.
- Ensure fridges, heaters, and any other appliances and vented items are turned off.
- Your caravan's exterior must be clean. Dust and dirt can leave scratch marks.
- We recommend drying your caravan before fitting the cover.
- Flapping material can damage your caravan's paintwork. Ensure it's properly fastened.
- Do not fit the cover in gale-force winds.

Installation Instructions

TIP: As the cover is large, heavy, and needs careful placement, we recommend two people and stepladders or another stable platform.

WARNING: If using stepladders or a platform, you'll be working at a height, and you must take extra precautions. Do not attempt to fit the cover from the ladder.

1. Carefully unfold the cover, ensuring the inner white layer is on the inside.
2. Open the back two zips of the cover, hold the cover on either side of the caravan at the front, and pass the cover over the roof towards the rear. Lift the cover over rooflights, windows and other protruding objects. Use all four zips if necessary.
3. Adjust the cover until all seams are aligned for an even fit.
4. Carefully close zips by gently pulling both sides together.
5. Pass each strap under your caravan and secure to the corresponding buckle on the opposite side.
6. Adjust all straps for a secure fit.

Care of Your Cover

- Remove loose dirt and dust with a soft sponge and warm water.
- Do not machine wash or tumble dry.
- Do not use detergent.
- Do not expose the cover to sparks, flames, or other sources of ignition.
- Ensure the cover is dry before storing it in the bag provided.
