A person is sitting inside a dark tent at dusk. A small campfire is burning in front of the tent. The background shows a forest of evergreen trees, a body of water, and mountains in the distance under a twilight sky.

# KAMP A

**Thoughtfully Made.  
Together Outside.  
Always Respectful.**

**KAMPA**

# On this rebirth year of 2026, we started with one simple question: **What is a Shelter?**

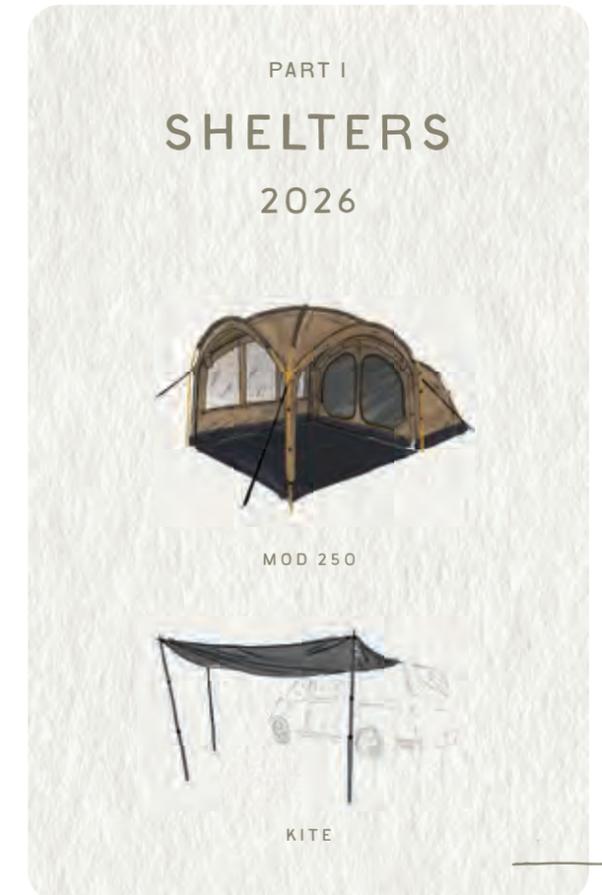

With some soul searching and an excited design team, we set about a whole new outlook on what it means to be outside – with loved ones, friends and family or hitting the trails solo. Our conclusion, was to direct our efforts on reliability without the rigidity – be comfort-focused, community-minded, and ready for anything.

**For 2026 Kampa presents:**

**Shelters & Tents:**  
Innovative designs that emphasises ease of set-up and durability.

**Drive-Aways:**  
Versatile solutions for various vehicles and set-ups.

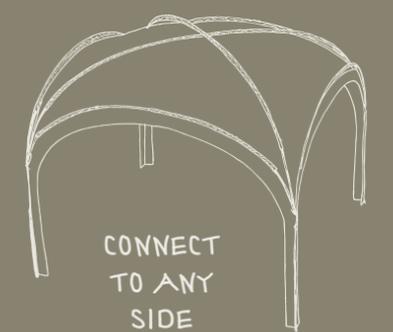

**Camp Accessories:**  
Essential gear that complements the outdoor experience.
