A = The height between the bottom of the main housing and the ground
B = Length

Specifications

- Awning tent with a high quality canopy in a new and timeless design:
 - High quality welded PVC fabric for optimum wind and water tightness
- Easy installation, user friendly:
 - The side panels are mounted with clamping profiles and the front panel slides into the awning lead rail
 - Side panels are equipped with mosquito mesh that can be closed with external transparent blinds
 - Large windows invite maximum light and create an extra feeling of spaciousness
 - Front panels starting from 3.50m length have a door opening on both sides and can also be rolled up
 - Front panel can be rolled up completely. The windows at the front cannot be opened
 - Integrated rope attached at the upper side of the front panel for adding additional accessories (for example to use a Thule Sun Blocker G2 Front panel)
 - Ventilation opening on both sides
- High sturdiness and extremely high stability:
 - Clamping profiles ensure mounting and connection of the side panel to the awning fabric
 - A double rubber flap attached to the mast profile ensures full sealing with the vehicle wall
 - Diagonal support between the mast and clamping profile
 - Double C-profile ensures wind tight sealing between front and side panels
- NOTE: Front and side panels need to be ordered separately
- Included:
 - Side panels: left and right side + mounting profiles + connection pieces to the awning + 2 luxury bags made from polyester fabric to store the mounting profiles, the tent, pegs, pins and elastics, ...
 - Front panel: the complete front panel + pegs and pins + double C-profiles + windslip + manual
